## ***Interior Painting Procedures***

What can I expect when I hire Carlson & Strand Painting to do interior work?

- ✓ We will help move furniture and group it so that the surfaces to be painted can be accessed.
- ✓ We will place plastic barriers at doorways to confine dust and reduce odors in the rest of the house.
- ✓ We will protect all furniture, floors and carpets, start to finish by drop cloths and/or plastic.
- ✓ We will prepare enameled woodwork surfaces by scuff sanding, dusting and/or cleaning.
- ✓ We will sand glossy surfaces to insure proper paint adhesion.
- ✓ We will prime with Stain Blocker Primer at all water marks, smoke stains, ink marks and the like that may bleed through the finish coat.
- ✓ We will patch cracks & holes in wall and ceiling surfaces.
- ✓ We will caulk open joints or cracks where wood meets drywall. We will check for cracks on all wood trim, windows and doors.
- ✓ We will prime drywall with an Oil Base Primer after wallpaper removal if needed.
- ✓ We will upon completion, clean and remove trash from the work area.
- ✓ We will label and leave touch-up paint for your use and provide you with a product and color schedule.
